

WORLD'S FIRST AIR-HARVESTED
WATER FUSED WHISKEY BRAND

WE CREATED OAKPACKER
TO HONOR THE TIRELESS WORK
OF SQUIRRELS IN GATHERING
ACORNS AND SPREADING
OAK TREES, WHICH PROVIDE
THE WOOD FOR CRAFTING
THE BARRELS USED TO
AGE OUR WHISKEY.

OAKPACKERTM
AMERICAN SINGLE MALT WHISKEY

IN OUR COMMITMENT TO NATURE,
WE CAREFULLY SELECTED THE
FINEST BARRELS AND BLENDED
OUR WHISKY WITH
AIR-HARVESTED PURE WATER,
ENSURING A PERFECTLY SMOOTH
TASTE WHILE MINIMIZING OUR
USAGE OF FRESH WATER.

OUR STORY

Our whiskey owes a big thanks to our furry friends - squirrels! They help us grow the oak trees that provide the wood for our barrels, giving our whiskey its unique flavors. Squirrels bury acorns that later sprout into oak trees, and we're grateful for their help in creating our beloved spirit. We chose the name OakPacker to pay tribute to these little creatures and their important role in the whiskey-making process.

OUR NAME

At OakPacker, we recognize the importance of water in our whiskey-making process. We consider it to be as vital as whiskey and barrels. To maintain the purity of our whiskey, we use only air-harvested water when cutting the proof of whiskey from cask to bottle strength. Our innovative air-harvesting technology enables us to collect pure, clean water directly from the atmosphere, minimizing our reliance on traditional water sources and conserving precious water resources.

CRAFTED BY AMERICA'S NATURE

OUR WHISKEY

At Oakpacker, we're passionate about offering the highest quality whiskey. We carefully source only the finest American single malt whiskies that meet our rigorous standards for taste, aroma, and complexity. Trust us for a whiskey crafted with care and attention to detail.

OAKPACKER
AMERICAN SINGLE MALT WHISKEY

OUR STORY

we have a unique whiskey master - squirrels. It may sound surprising, but these furry little creatures play a vital role in the creation of our whiskey.

Without squirrels, we wouldn't have acorn-packed soil, which is essential for the growth of oak trees. And oak trees are critical for making the barrels that we use to age our whiskey. In fact, oak barrels are so important to the whiskey-making process that without them, whiskey simply wouldn't exist.

Squirrels play a critical role in spreading oak trees, as they bury acorns in the ground for later consumption. When the squirrels forget about these buried treasures, the acorns have a chance to germinate and grow into oak trees.

OUR NAME

Our company is named OakPacker, a nod to the hardworking squirrels that play a crucial role in the creation of our whiskey. As you may know, squirrels are known for packing acorns under the soil, which helps to spread oak trees - the source of the wood for our barrels.

OUR WHISKEY

At our distillery, we take pride in crafting our whiskey with the utmost care and attention to detail. We use only the finest craft American single malt whiskey, which is carefully selected for its exceptional quality and flavor.

But it's not just the whiskey itself that sets us apart - we also use specially selected barrels to age our whiskey. These barrels have been carefully chosen for their unique characteristics, which impart rich, complex flavors to our whiskey.

And it's not just any whiskey that we use to create our signature spirit - we use our very own whiskey as the base for our blend. This ensures that our whiskey has a unique and distinctive character that can't be found anywhere else.

OUR PRODUCT & AWARDS

OUR WATER

At OakPacker, we believe that the water used in our whiskey-making process is just as important as the whiskey and barrels themselves. That's why we're proud to use a unique water source that sets us apart from other whiskey makers.

We source our water using an innovative air-harvesting process, which allows us to collect pure, clean water directly from the atmosphere. This means that we don't need to rely on traditional water sources, which can be limited and potentially harmful to the environment.

OUR PHILOSOPHY

At OakPacker, we're committed to crafting exceptional whiskey while also minimizing our impact on the environment. Our innovative air-harvesting process is just one example of this commitment, allowing us to source pure, clean water without harming limited freshwater resources.

But our commitment to sustainability doesn't stop there. We're always exploring new ways of creating whiskey with minimal harm to nature, from sourcing the finest ingredients to using environmentally-friendly packaging.

Innovation is at the core of our philosophy, and we're constantly pushing the boundaries of what's possible in whiskey-making. We believe that by combining our commitment to sustainability with our passion for innovation, we can create truly exceptional whiskey that not only tastes great, but also benefits the environment.

So when you choose OakPacker whiskey, you're not just choosing a premium spirit - you're also supporting a company that is dedicated to making a positive impact on the world around us.
